

Fine Wood Work Association (WA) Inc.

The ***Fine Wood Work Association*** meets on the second Monday of each month from February to November during the year, with some exceptions to avoid public holidays or conflicts with other woodworking events. The Association also conducts hands-on workshops from time to time.

The majority of meetings are held at the ***Perth Wood School*** located at 81 Abernethy Road, Belmont, starting at 7:00 PM for about 2 hours. Visitors and prospective members are welcome to attend meetings, and are advised to contact the President (click on the Contacts section on the Home Page) to confirm meeting locations and dates.

The monthly meetings feature presentations from members, often explaining details of their recent work, and from experts in various aspects of woodworking, and woodworking products and machinery.

A major event on the woodworking calendar each year is the ***Perth Wood Show*** held at the Claremont Showgrounds. The Association organises, as part of the Show, the ***Out Of The Woods*** competition featuring woodworking, turning and wood carving. The Wood Show is held in August each year.

Details of the ***Out Of The Woods*** competition can be viewed by clicking on "Wood Show" on the Home Page.

The ***Fine Wood Work Association*** organises a number of one day, and some longer, **workshops** during the year on various aspects of wood working. Such topics as chair making, steam bending, box making, veneering are covered in workshops run by local and visiting experts in their fields.
