The program for our monthly meetings, and for some weekend seminars, is being developed by your committee and will be published as soon as we can confirm events. On the agenda are informative talks and demonstrations by our members, and by invited guests, on topics of special interest to all wood workers.

Remember that if you have any particular wood working tool, machinery or technique that would be of interest to other wood workers, the *Show, Tell & Ask* time at each meeting is where you can enlighten your fellow members. Or if there is a particular subject you would like more in depth information on then please mention it to a committee member and we will try to include it in a future meeting.
